

# The BUGA Wood Pavilion 2019

High Performance Timber Shell

## ***Institute for Computational Design and Construction***

*Prof. Achim Menges*

### ***Research Interests***

- Computational Design
- Robotic Fabrication
- Biomimetics in Building Design

# Institute for Computational Design and Construction

Prof. Achim Menges

## Computational Design

- Algorithmic modelling of complex geometry
- Integrative form generation
- Evolutionary design exploration and optimisation
- Agent-based modelling and simulation

***Institute for Computational  
Design and Construction***

*Prof. Achim Menges*

***Biomimetics in Building Design***

- Biomimetics in Construction and Design
- Less resource consumption through more performative forms

*“In biology material is expensive but shape is cheap.  
As of today the opposite was true in the case of  
technology.” - Julian Vincent*

**FORM FINDING**  
**FREI OTTO**

*“The characteristic form results from the organisation of matter in space, the arrangement of elements according to a number of embedded rules.”*

*Frei Otto*

## COMPUTERIZATION

Author: owns outcome  
Abstraction: action of designing  
Specificity: induced

## COMPUTATION (ACT: COMPUTING)

Author: owns principle, not outcome  
Abstraction: principle of designing  
Specificity: deduced

Terzidis, Kostaz, 2011 (2003): *Algorithmic Form*, in: Menges, A, Ahlquist, S (eds): *Computational Design Thinking*, Wiley & Sons Ltd, Chichester, pp 94-101.

*Facade Panels on EPDM Waterproofing*

*Hollow Cassette Segments*

**Facade Panels**

*Larch 3-Ply*

**Battens in Direction of Water Flow**

*Purenitstrips 40x60mm*

**Waterproofing Membrane**

*EPDM, 2mm*

**Top Plate**

*Spruce Laminated Veneer Lumber, 33mm*

**Cassette Beams with applied glue interface and angled pockets for bolt washers**

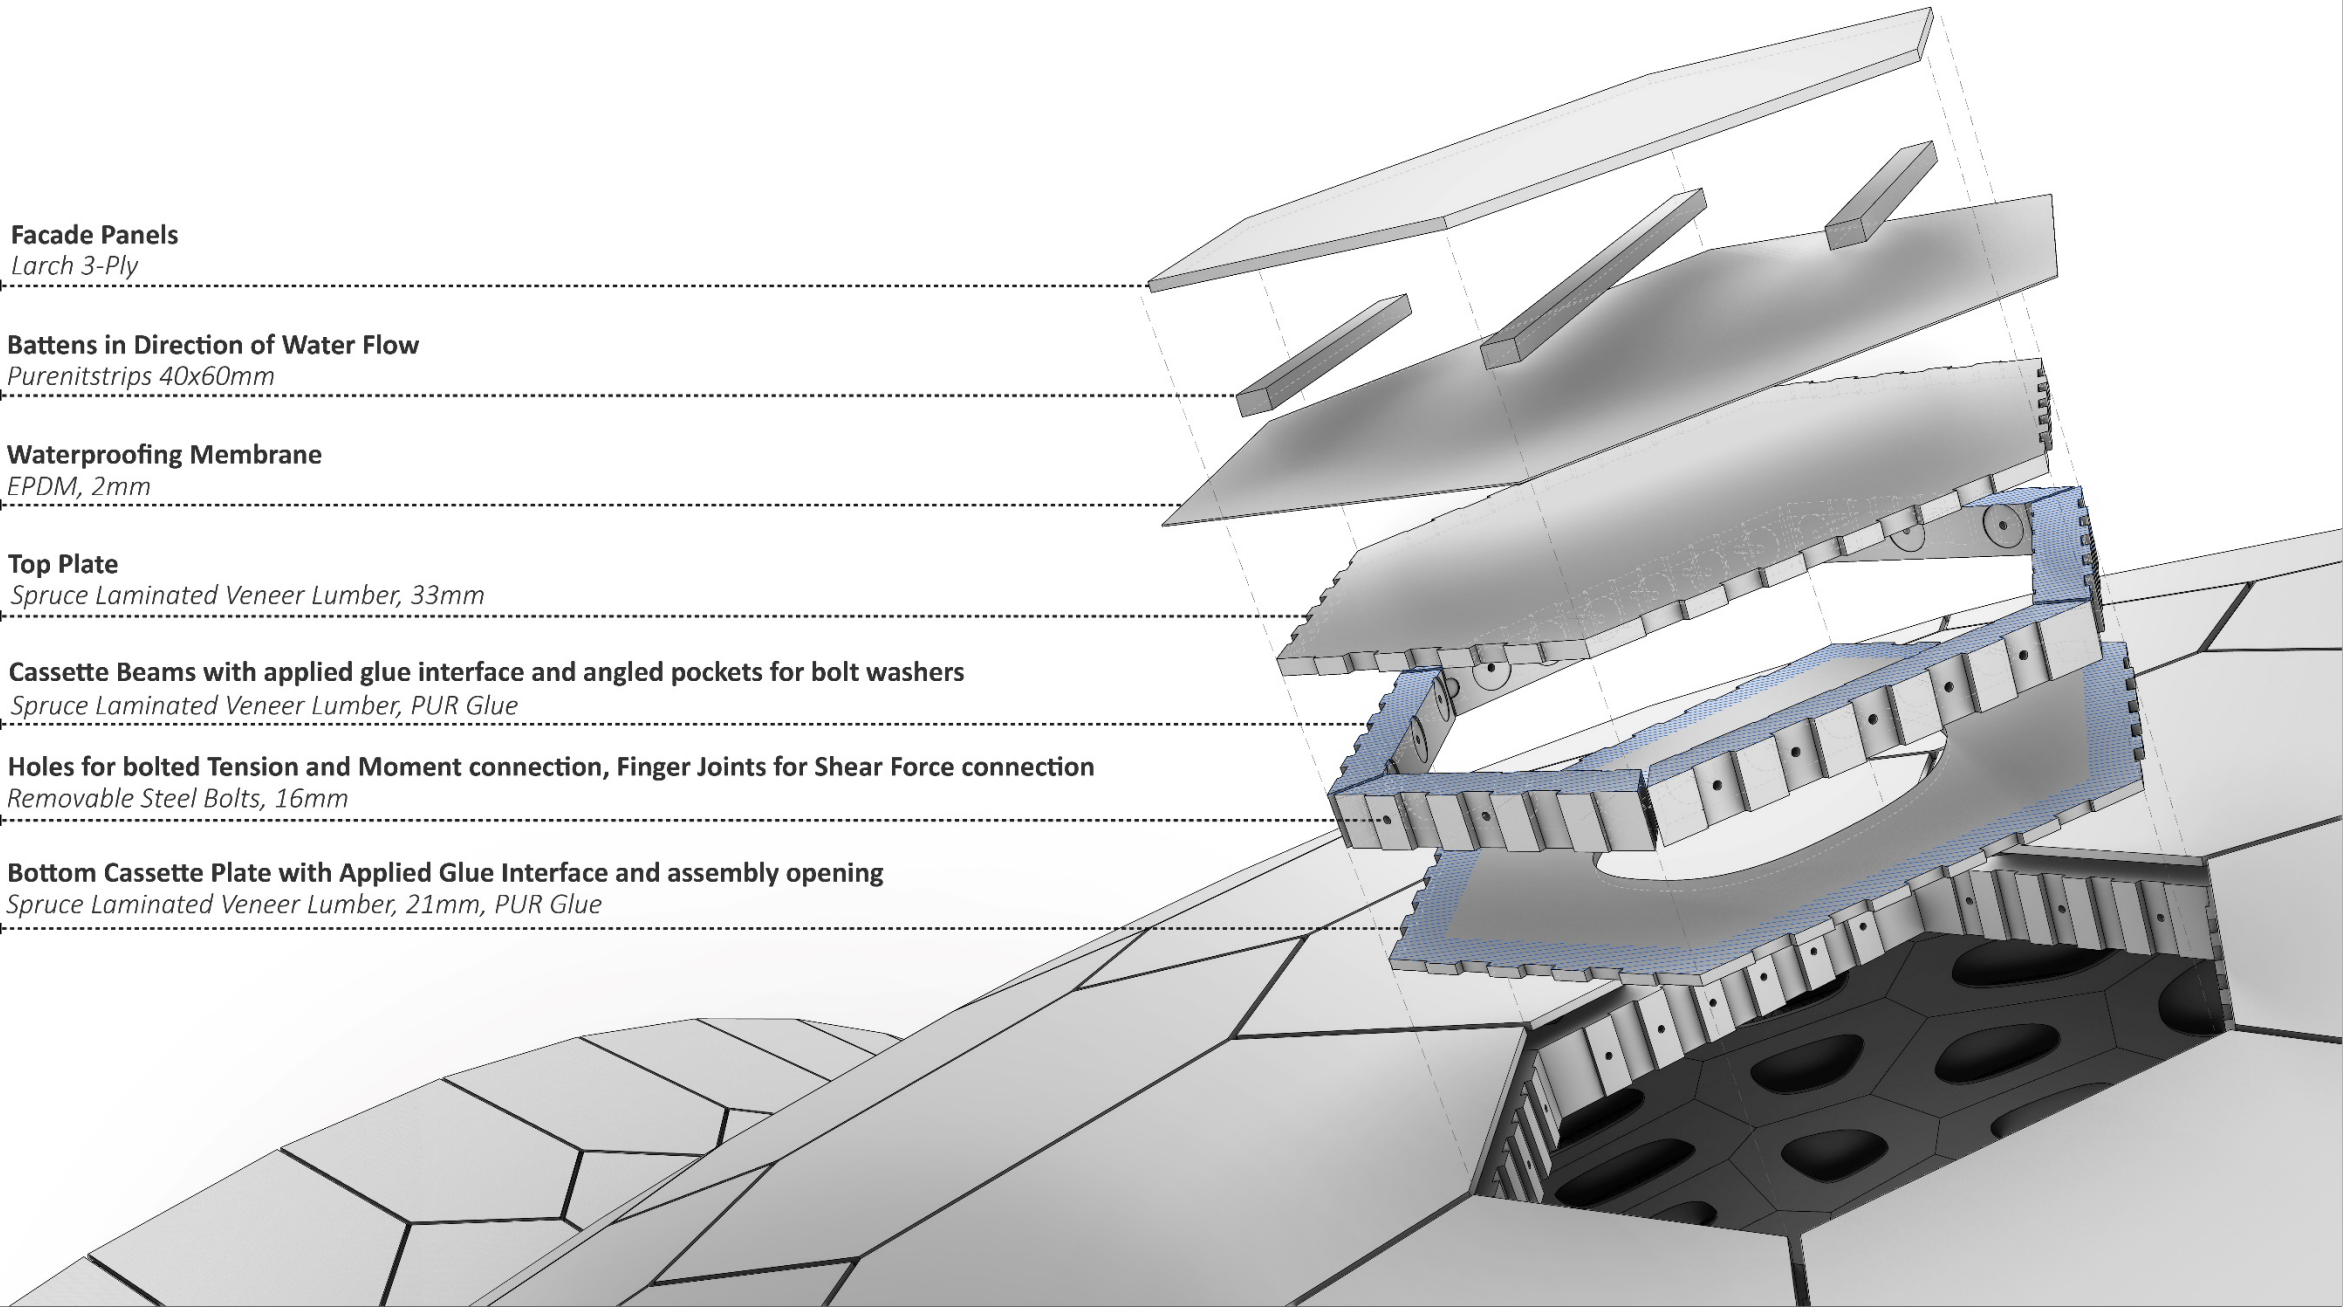

*Spruce Laminated Veneer Lumber, PUR Glue*

**Holes for bolted Tension and Moment connection, Finger Joints for Shear Force connection**

*Removable Steel Bolts, 16mm*

**Bottom Cassette Plate with Applied Glue Interface and assembly opening**

*Spruce Laminated Veneer Lumber, 21mm, PUR Glue*

## Effectors

- Gripping Beams, Plates and Cassettes
- Proximity Sensors for Process Control
- SmartCamera zur QualityControl

- Spindle, 4 Tools
- Automated Handnailgun
- Glue-Application Head

# Process Simulation
